and noist their meetings. When day arrives, they are outhausted and little fit for work. When the planters are askef why they give this liberty, so that to their slaves, they righ that they are unable to prevent it. In abort, when unaccustomed to do, they really at the dat they are unaccustomed to do, they really at the dat they are without further action on his part, proceed to posion the cattle. The terror of poison is great in this country; by its power the alway governs his master."

any cattle. The terror of poison is great in this country; h is to power the slave governs his master?

All Interpret the slave governs his master?

All Interpret the slave governs to prevail the most extensively in Martinique. The Commission have organized report by the Governs or Martinique, dated the 15th March 1 1893, in which this functionery attributed partly to the fet use of poison the little interest the planters take in reising cat.

Humanity and Morality have often claimed, and sometime perhaps with imprudence, the sholition of slavery. It is out a measure of political necessity.

It is better that the crisis should be brought about by a firm and prudent hank than to leave the colonies to be an extended to the second of the

capable of supporting it.

Your Commission have been unanimoes in the opinion,

I that the time has come to engage actively in the final abolition of slavery in our colonies: and they have thought it
their data to endeavor to draying the best method of second

u- prishing that object.

Two general systems have naturally presented their new series.

The first gives liberty to the slaves individually, and by series of the state of th

The second puts a stop to servitude at once, and for or of erg slave.

Your Commission, after mature invastigation, were the nanimous opinion, that simultaneous emancipation pro

the manimous opinion, that simultaneous emancipation pre she santed less inconvenience and fewer perile than gradus emancipation.

This opinion, which, moreover, saems universally admit

ted in the colonies themselves, may at first appear surpt aing. But an attentive examination will soon show, that is founded upon rezsons which seem unanswerable. Ther reasons have already strongly attracted the attention of the late Commission. "The system of simultaneous emancing tion," said the reporter, "appeared preferable."

m," said the reporter, "appeared preferable."

All gradual emaneipation has, indeed, three weighty inureniences:

First. When the government shall at once, and by the
meet and vaible operation of her will alone, grant inde-

direct and visible operation of the will alone, grant independence to all the slaves, she may easily, in return for the new rights which she confers, impose upon each of then portain peculiar and strict obligations, and place them is none under temporary regulations, which shall gradually accountent them to make a good use of their liberty. As the chance is complete, the whole society bains trans

As the change is complete, the whole society baing transormed at the same time, it will not be impossible to introtice new maxims of government, a new police, new funcionaries, new laws. These laws applying to all, no onwill feel himself injured, none will resist them. The mother country is prepared to make such an effort, and the colonistos submit to it.

When, on the contrary, the slaves receive their liberty.

When, on the contrary, the slaves receive their libert no no'y one, and by a oncourances of circumstances while no power and by a contempose of circumstances while operar societant, it is social change thus effected attracts of attention. At each spearate enfanchesisment the nature of colonial society is fundamentally changed, while its or interior form presents no alteration. The orifandinest corner for form calculations to alteration of the confined interior form a class by themselves, we make the contact of the confined interior form present agreements, a thintent government. These are undertaken all cells and toler aggreeous. It seems now simple and less troubletons to any other confined and the confined co

resort to common law. Now the common law for a society of slaves does not all reasonable ours; it were a great error to suppose it.

If the suppose it is were a great error to suppose it.

If the suppose it is used to be a suppose it is

countries the master is chief magistrate; and when the tate has established, maintained, and regulated the usage of servitude, the largest part of the task is accomplished. The legislation of a slave country does not take into account the existence of a great number of men at once free poor, and depraved. It makes no preparations to provide or their usage to represe their disorders, and correct the or their usage to represe their disorders, and correct their

It is, theo, easy for the enfranchised to abuse his independence, and lead as IN lea and vagaboud life. At first this evil is hardly perceptible, but it increases with the number of the enfranchesed, until at length we unexpectedly find ourselves in the midst of an entire population, ignorant, nusreable, and discognized; a mong whom we find only the vices of free men, and whose morals or conduct it is then out of our power to regulate.

No. has moreover this effect, that "it takes from him the first being. All who here tweetile in all was economically and the second of the second of the second of with the infect of being of bondages. Lafter is not only sworded as a dislower. And experience teachers are second of the second of t

ose upon whom it acts vagrancy and wretchedness, as oil as liberty. This explains sufficiently what is passing in our coloics.

We see by the despatches of the governors, that smoot interface that the same of the control of the control of the interface to the control of the control of the control of the universal below. None have been inclined to agreed them, a labor peculiarly deputing in their eyes, beformed by slaves. "Who does not know, "any take the control of the control of the control of the control than componented but fine," and the control of the control than componented the first the control of the control than the control of the tent and the control of the control of the control of the tent and the control of the control of the control of the tent and the control of the control of the control of the tent and the control of the control of the control of the tent and the control of the control of the control of the tent and the control of the control of the control of the tent and the control of the control of the control of the tent and the control of the control of the control of the tent and the control of the control of the control of the tent and the control of the control of the control of the tent and the control of the control of the control of the tent and the control of the control of the control of the control of the tent and the control of the control of the control of the control of the tent and the control of the tent and the control of the control of the control of the control of the tent and the control of the control of the control of the control of the tent and the control of t

Thirdly. All gradual emancipation has, moreover, the evitable effect of leading by a very short path to complete

mancipation. A very scriking example of this fact has A very recent and very scriking example of this fact has A shappened in the English colonies. One part of the nerview were shout to attain their liberty two years before the est. As soon as the period arrived for the first, it was ound necessary to advance it to the eccond, and all took necessary of their independence, together.

possession of their interprisonal or vogenors.

It may be fearlessly affirmed, that it will be always the in every country where this method is parased.

When, by means of gradual emancipation, a great oumb of negmes have received their liberty, it becomes almost before the property of the property of

iple for all,—only exists temporarily and partially for a level of the spens that a multitude of slaves are emancisated at ouce. But it happens in spite of us, without our nowledge, without our control, without preparation; it appears when authority is cafeobled, and when a part of the opulation has already acquired those habits of silenses and

action slinost impossible.

To those primary and general difficulties we must add a rowd of special and secondary ones, which are discovered as a attentive examination of the different systems of grad

ual enancipation, which have hitherto been proposed in practice.

In 1831 a royal optionace booke down almost every hit region to the proposed of the property of the property
